2202b Jefferson Park Ave, Charlottesville VA

EDUCATION

University of Virginia, Charlottesville, VA

- **GPA 3.8/4.0**, BA in Economics and Mathematics, Class of 2027
- Relevant Courses: Derivative Securities, Industrial Organization, Econometrics, Data Cleaning, Risk Economics

PROFESSIONAL EXPERIENCE

Junior Staff, Kenyon Consulting

Feb 2025 - Present

- Leveraged Python, Stata, and Excel to process and analyze large-scale public and proprietary datasets, including a 150,000+ observation time-series used in econometric studies and expert testimony
- Generated valuation inputs used in discounted cash flow models for lost-profit, breach-of-contract, unequal-pay, and personal injury damages assessments across 8 engagements
- Evaluated documentary evidence and economic records to identify key drivers of damages in matters ranging from individual claims to class actions with potential liabilities exceeding USD 70 billion

Economic Research Assistant, UVA

Dec 2024 - Present

- Constructed a 170k observation panel dataset measuring U.S. county-level infrastructure capital spanning 50 years, enabling long-horizon analysis of public investment trends and regional economic development
- Combined and reconciled data from U.S. Census, FHWA, BEA, and FRED sources to create a unified framework for analyzing infrastructure investment, capital accumulation, and public asset depreciation
- Designed and validated allocation methodologies using infrastructure characteristics to estimate capital exposure

Economic Advisory & Legal Intern, KPMG Singapore

May 2025 - Aug 2025

- Analyzed literature and case studies on structural unemployment, resettlement, and economic development to assess the socioeconomic impact of a national energy transition project
- Researched relevant sociodemographic data and evaluated proxy variables for inclusion in statistical models
- Compiled contract amendments across 300+ documents spanning 15 client groups and designed VBA automation

Makerspace Technologist Lead, Alderman Library

February 2024 - Present

- Led facility tours for 20+ visitors weekly, advised 30+ students per semester on fabrication and design projects and developed equipment usage guidelines

LEADERSHIP EXPERIENCE

President, Hong Kong Student Association

August 2024 - Present

- Managed a club of 100+ members, coordinated with executives to plan and finance socials and meetings
- Previously served as media and outreach executive, collaborated with organizations to promote Cantonese culture, and increased media visibility by 120% by maintaining a consistent upload schedule on Instagram
- Set deadlines and performance targets while coordinating with the board to ensure successful event execution

Founder, JayHan Cosprops

January 2024 - Present

- Identified commercially underserved niches within pop culture, designed and manufactured corresponding affinity items and interactive products with 3D printing
- Conducted competitor pricing analysis across major marketplaces to inform pricing strategy
- Reached 700+ customers through digital marketing initiatives and sold 100+ units of merchandise
